SAFETY RECALL J0W (Interim Notice J1W)

Certain 2004 – 2006 Model Year Scion xA Supplemental Restraint System (SRS) Electronic Control Unit (ECU)

Model / Years	Production Period	Approximate Total Vehicles	Approximate Stop Sale Dealer Inventory
Scion xA 2004 – 2006	Late January 2003 – Early January 2007	17,000	0

On November 1, 2018, Toyota filed a Defect Information Report (DIR) with the National Highway Traffic Safety Administration (NHTSA) informing the agency of our intent to conduct a voluntary Safety Recall on certain 2004 – 2006 model year Scion xA vehicles.

Condition

The airbag system in the subject vehicles could experience electrical shorting that could damage the circuits in the system. This could cause the airbag warning lights to illuminate and the airbag(s) and seat belt pretensioner(s) to become deactivated, or it could cause those systems to inadvertently deploy. These conditions can increase the risk of injury or crash.

Remedy

Toyota is currently preparing the remedy for this condition. When the remedy becomes available, Toyota will send an owner notification by first class mail advising owners to make an appointment with their authorized Toyota dealer to have the SRS ECU replaced with a new one **FREE OF CHARGE**.

Covered Vehicles

There are approximately 17,000 vehicles covered by this Safety Recall. No vehicles involved in this Safety Recall were distributed to Puerto Rico.

Owner Letter Mailing Date

Toyota will begin to notify owners in late December 2018.

Toyota makes significant effort to obtain current customer name and address information from each state through industry resources when mailing owner letters. In the event your dealership receives a notice for a vehicle that was sold prior to the Safety Recall announcement, it is the dealership's responsibility to forward the owner letter to the customer who purchased the vehicle.

Please note that only owners of the covered vehicles will be notified. If you are contacted by an owner who has not yet received a notification, please **verify eligibility by confirming through TIS prior to performing repairs**. Dealers should perform the repair as outlined in the Technical Instructions found on TIS.

Dealer Inventory Procedures

New Vehicles in Dealership Inventory - Reminder

Toyota has not identified any new vehicles in dealership inventory that are covered by this Safety Recall. However, below is a reminder of the dealer's obligations pertaining to Safety Recalls if there are new vehicles in dealership inventory:

Under Title 49, Section 30112 of the United States Code, a dealer cannot sell, offer for sale, or introduce or deliver for introduction in interstate commerce a new motor vehicle when it is aware that the vehicle does not comply with an applicable Federal Motor Vehicle Safety Standard or contains a defect related to motor vehicle safety. Further, 49 Code of Federal Regulations §577.13 requires us to provide the following advisory: It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied.

Vehicle Safety Recall completion should always be verified through TIS. We request your assistance to ensure involved vehicles are identified and not delivered prior to performing the remedy.

NOTE: Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily (<https://dealerdaily.toyota.com/>). The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

Pre-Owned Vehicles in Dealer Inventory

Toyota typically requests that dealers **NOT** deliver any pre-owned vehicles in dealer inventory that are covered by a Safety Recall unless the defect has been remedied. In this case, until remedy parts are available, delivery of a pre-owned vehicle is acceptable if disclosed to the customer that the vehicle is involved in this Safety Recall and that the remedy is currently being prepared by Toyota.

Toyota expects dealers to use the attached Customer Contact and Vehicle Disclosure Form to obtain vehicle buyer information. Dealers are expected to provide a copy of the completed form, along with the most current FAQ, to the vehicle buyer. Toyota and the dealer may use this information to contact the customer when the remedy becomes available.

Keep the completed form on file at the dealership and send a copy to quality_compliance@toyota.com. In the subject line of the email, state "Disclosure Form J0W/J1W" and include the VIN.

NOTE: Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily (<https://dealerdaily.toyota.com/>). The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

Toyota Certified Used Vehicle (TCUV)

The TCUV policy prohibits the certification of any vehicle with an outstanding Safety Recall, Special Service Campaign, or Limited Service Campaign. Thus, no affected units are to be designated, sold, or delivered as a TCUV until all applicable Safety Recalls, Special Service Campaigns, and Limited Service Campaigns have been completed on that vehicle.

Toyota Rent-A-Car (TRAC) & Service Loaners

Toyota requests that dealers remove all TRAC and Service Loaner vehicles from service that are covered by a Safety Recall unless the defect has been remedied.

Customer Handling, Parts Ordering, and Remedy Procedures

Customer Contacts

Customers who receive the owner letter may contact your dealership with questions regarding the letter and/or the Safety Recall. Please welcome them to your dealership and answer any questions that they may have. A Q&A is provided to assure a consistent message is communicated.

Customers with additional questions or concerns are asked to please contact the Toyota Customer Experience Center (1-888-270-9371) - Monday through Friday, 7:00 am to 7:00 pm, Saturday 7:00 am to 4:30 pm Central Time.

Media Contacts

It is imperative that all media contacts (local and national) receive a consistent message. In this regard, all media contacts must be directed to Tania Saldana (859) 815-9968 in Toyota Corporate Communications. Please do not provide this number to customers. Please provide this contact only to media.

Warranty Reimbursement Procedures

Loaner Vehicle Reimbursement Procedure

If a customer requests a loaner vehicle or alternative transportation during the interim phase, a loaner vehicle or alternative transportation through Toyota Rent-A-CAR (TRAC) can be claimed for \$35 per day.

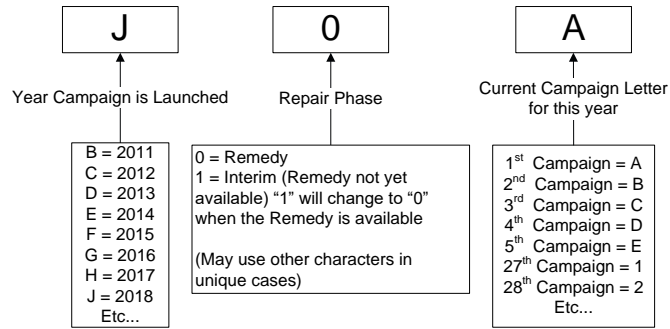

Op Code	Description
LGG90A	Vehicle Rental 1-30 Days
LGG90B	Vehicle Rental 31-60 Days

NOTE: Rental invoice *MUST* be attached to all rental claims. These claims may be subject to debit if rental invoice is not attached.

Customer Reimbursement

Reimbursement consideration instructions will be included in the owner letter.

Campaign Designation / Phase Decoder

Examples:

C1B = Launched in 2012, Interim Phase, 2nd Campaign Launched in 2012
 E0A = Launched in 2014, Remedy Phase, 1st Campaign Launched in 2014
 J0A = Launched in 2018, Remedy Phase, 1st Campaign Launched in 2018.

Please review this entire package with your Service and Parts staff to familiarize them with the proper step-by-step procedures required to implement this Safety Recall.

Thank you for your cooperation.

Frequently Asked Questions

Original Publication Date: November 1, 2018

Q1: What is the condition?

A1: The airbag system in the subject vehicles could experience electrical shorting that could damage the circuits in the system. This could cause the airbag warning lights to illuminate and the airbag(s) and seat belt pretensioner(s) to become deactivated, or it could cause those systems to inadvertently deploy. These conditions can increase the risk of injury or crash.

Q1a: What is inadvertent deployment of the airbag(s) and pretensioner(s)?

A1a: This condition can lead to the unexpected activation of the airbag(s) and pretensioner(s). An airbag that deploys unexpectedly can, under some circumstances, increase the risk of injury and the possibility of a crash

Q2: What is Toyota going to do?

A2: Toyota is currently preparing the remedy for this condition. When the remedy becomes available, Toyota will send an owner notification by first class mail advising owners to make an appointment with their authorized Toyota dealer to have the SRS ECU replaced with a new one **FREE OF CHARGE**.

Q3: Are there any warnings that this condition exists?

A3: If this condition has occurred the airbag warning light may illuminate.

Q4: What should I do if my Airbag Warning Light illuminates?

A4: The Airbag Warning Light is designed to illuminate briefly when the engine switch is turned to the "ON" position during the ignition cycle check function. Under normal operation, the warning light turns off after a few seconds. The warning light turning off after the check period means the system is operating as designed.** If the Airbag Warning Light (1) does not illuminate during this few second check period or (2) illuminates or remains illuminated after the check period, you may be experiencing this condition and the airbag(s) and pretensioner(s) may not deploy in a crash. Please contact your local authorized Toyota dealer promptly for diagnosis and appropriate repair. If the warning lamp illumination is related to the condition covered by this Safety Recall, the inspection and potential repair will be performed at no charge to you.

** Please refer to the Owner's Manual for additional operation details related to this system.

Q5: Which and how many vehicles are covered by this Safety Recall?

A5: There are approximately 17,000 vehicles covered by this Safety Recall.

Model Name	Model Year	Production Period
Scion xA	2004 – 2006	Late January 2003 – Early January 2007

Q5a: Are there any other Lexus/Toyota/Scion vehicles covered by this Safety Recall in the U.S.?

A5a: Only vehicles equipped with this specific generation of the SRS ECU are covered under this recall. Other Toyota, Lexus, and Scion vehicles, including certain Scion xA vehicles, are not equipped with this SRS ECU.

Q6: What if I previously paid for repairs related to this Safety Recall?

A6: Reimbursement consideration instructions will be provided in the owner letter.

Q7: How does Toyota obtain my mailing information?

A7: Toyota uses an industry provider who works with each state's Department of Motor Vehicles (DMV) to receive registration or title information, based upon the DMV records. Please make sure your registration or title information is correct.

Q8: What if I have additional questions or concerns?

A8: If you have additional questions or concerns, please contact the Toyota Customer Experience Center at 1-888-270-9371 Monday through Friday, 7:00 am to 7:00 pm, Saturday 7:00 am to 4:30 pm Central Time.

CUSTOMER CONTACT & VEHICLE DISCLOSURE FORM

This form is not applicable for new vehicles in dealership inventory and TCUV units.

This vehicle is involved in a Safety Recall. At this time, remedy parts are not available and the remedy has **NOT** been performed. I understand that the vehicle will need to be returned to an authorized Toyota dealer to have the remedy performed at **NO CHARGE** when the remedy is available.

Customer Signature _____

Toyota recommends that you register with the Toyota Owners Community at <http://www.toyota.com/owners/> and regularly check recall applicability using www.toyota.com/recall or www.safercar.gov. You will need to input your 17-digit Vehicle Identification Number (VIN).
